

## 2007 1st quarter sales up 20%

€ millions	2007	% of sales	2006	% of sales	07/ 06 % Change
Southern Europe(1)	33,32	78,3	27,57	77,5	21
Other EU countries	8,07	19,0	6,80	19,1	19
Other markets	1,17	2,7	1,22	3,4	(4)
SLIT	34,63	81,4	27,66	77,7	25
SCIT	6,17	14,5	6,27	17,6	(2)
Other products	1,75	4,1	1,66	4,7	5
Total Q1 sales	42,55	100,0	35,59	100,0	20

(1) Portugal, Spain, France, Italy, Greece

**2007 first quarter sales** had further significant growth of over 20% on all European markets. Other markets were temporarily impacted by delays in deliveries.

The strong growth of new treatments before and during the season contributed to the **very rapid increase in desensitization via the sublingual route** (SLIT + 25%), the subcutaneous route (SCIT) decreased by 2%, remaining stable overall.

This good start of the year enables us to confirm our growth guidance for 2007.

## **About STALLERGENES**

*Stallergènes is a European biopharmaceutical laboratory specialising in the treatment by desensitisation of allergy-related respiratory conditions, such as rhino-conjunctivitis or allergic asthma.*

*A pioneer and a leader in sublingual desensitisation treatments, Stallergènes devotes 15% of its sales to its Research and Development activities, notably to the development of a new therapeutic range enabling the provision of desensitisation treatments by sublingual tablets.*

*With its head office in France, Stallergènes markets its products in close to 40 countries. Stallergènes achieved 2006 sales of € 126.5 million, half of which outside France.*

*Stallergènes' shares are listed on Eurolist Compartment B of the Euronext Paris Stock Exchange.*

*ISIN code: FR0000065674, Reuters code: GEN.PA, Bloomberg code: GEN.FP*
